

NUR 507 PICO-T Question Guidelines and Rubric

After collaborating with your peers and receiving feedback from your instructor, develop a final draft of your PICO-T question that you will use to guide your research throughout your MSN program, culminating in your capstone project.

1. You should provide your PICO-T question in the form of a question
2. Outline each of the components and label them in proper order:
 - A. Population/patient (P)
 - B. Intervention (I)
 - C. Compare/control (C)
 - D. Outcome (O)
 - E. Time (T)

Guidelines for Submission: Your PICO-T question should be 1 page in 12-point Times New Roman font. Bullet-point each of the four PICO-T components and label them in the proper order. Cite sources in APA format.

Critical Elements	Proficient (100%)	Needs Improvement (85%)	Not Evident (0%)	Value
Population/Patient	Clearly articulates population/patient	Population/patient only partially defined, lacking clarity	Does not articulate population/patient	18
Intervention	Clearly articulates intervention	Intervention only partially defined, lacking clarity	Does not articulate intervention	18
Compare/Control	Clearly articulates comparison	Comparison only partially defined, lacking clarity	Does not articulate comparison	18
Outcome	Clearly articulates outcome	Outcome only partially defined, lacking clarity	Does not articulate outcome	18
Time	Clearly articulates time	Time only partially defined, lacking clarity	Does not articulate time	18
Writing Mechanics	Cites sources in APA format	Cites sources in APA but citations contain inaccuracies	Does not cite sources	10
Earned Total				100%

PICO-T

What is the impact of (ICT) information technology and communication on nursing care?

- Population: Occupational health nurses ages 25-55 years old.
- Intervention: Identify differences in acceptance and satisfaction with ICT among the different age groups.
- Comparison: Identify positive and negative effects of technology in nursing care among the different age groups.
- Outcome: Satisfaction of nurses with ICT in relation to delivery of care + enhancing nursing practice
